SUMMARY

Highly motivated and detail-oriented Software Tester with full understanding of manual test concepts, test case development, defect life cycle and QA process. Well understanding in detecting defects and providing quality through daily workflows testing engineering methodologies. Aiming for an entry level QA/Test Engineer role to utilize the knowledge gained from my studies and hands-on experience in project execution.

EXPERIENCE

Software Testing (Intern), Luminar TechnoLab, Kakkanad   July 2025 - Present

- Prepared and executed manual test cases for web-based applications and documented results with precision.
- Learned to automate basic test flows using Selenium WebDriver, JUnit and TestNG framework.
- Applied knowledge of SDLC/STLC to contribute to test planning and defect lifecycle.

Associate SDU, ReSource Pro Operational Solution Private Limited, Bangalore   Apr 2024 - July 2025

Trainee Associate - Payment Posting, Cascade Revenue Management Pvt. Ltd., Kakkanad   Jan 2023 - June 2023

PROJECTS

Rediff Registration Page (Manual Testing)

- Executed functional, usability, and edge case testing
- Documented issues and created final test execution summaries
- Evaluated requirements and created appropriate test cases for form validation

Rajadhani IceCreams (Manual Testing)

- Carried out workflow validation and user interface testing across website modules.
- Conducted out test planning, developed test scenarios, and carried out manual test cases
- Documented issues and monitored them accurately throughout the defect life cycle.
